

THE FIRST BLOCKCHAIN to create verified personal profiles based on academic and professional achievements

DISCIPLINA is a multifunctional blockchain for the projects in educational and recruiting spheres. It provides the transparency of work and creates conditions of maintaining confidentiality and reliability of information added by system participants.

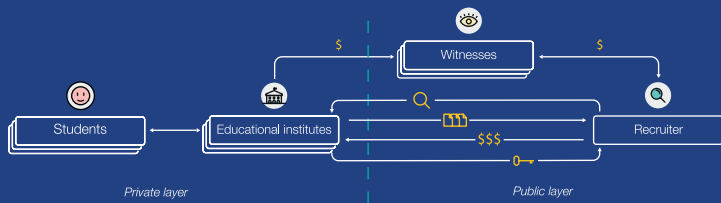

Project mission

To create a multifunctional blockchain for keeping a unified register of academic achievement and qualifications to generate a scoring system for every user.

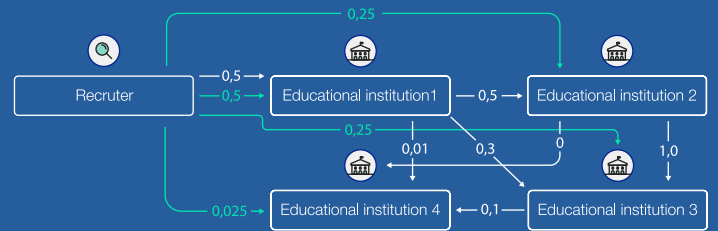

Roadmap

Blockchain architecture

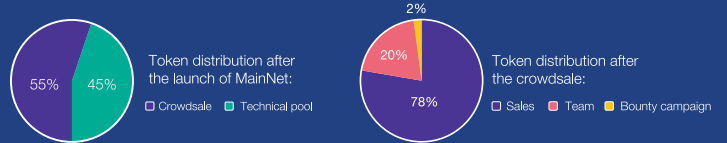

Web of Trust

Minting of DISCIPLINA

Token sale details

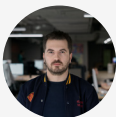

Current status:
Private sale

Main stage:
Summer 2018

Softcap:
7,000 ETH

Hardcap:
34,000 ETH or \$15,000,000
the one that will be raised first

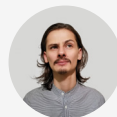

Team

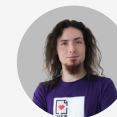

Ilya Nikiforov
CEO
Co-founder

Dmitry Gordovich
Co-founder

Arseniy Seroka
VP of Engineering
Lead Developer at Cardano
Serokell co-founder and CEO

Jonn Mostovoy
CTO
Lead Developer at Cardano.
Serokell co-founder

Advisors
