

DISCIPLINA is a multifunctional blockchain for the projects in educational and recruiting spheres. It provides the transparency of work and creates conditions of maintaining confidentiality and reliability of information added by system participants.

Project mission

To create a multifunctional blockchain for keeping a unified register of academic achievement and qualifications to generate a scoring system for every user.

Roadmap

Blockchain architecture

Web of Trust

PoS Consensus Algorithm

To check the validity of transactions in public chain, so-called «Witnesses» will use a consensus algorithm based on Proof-of-Stake technology, which provides the high speed and low price of transaction. The Witnesses, as in other cryptocurrencies, will be rewarded for the launch of each block with commission fees from transactions made in that block. The probability that the Witness will become the block-leader is proportional to the number of tokens on his account. You can find more details in Technical Paper.

Minting of DISCIPLINA

Team

Ilya Nikiforov
CEO
Co-founder

Dmitry Gordovich
Co-founder

Arseniy Seroka
VP of Engineering
Lead Developer at Cardano
Serokell co-founder and CEO

Jonn Mostovoy
CTO
Lead Developer at Cardano.
Serokell co-founder

Advisors

Kenji Sasaki
Co-founder of Cardano, CEO of Next Chymia Consulting HK.

Jason King
Co-founder of the Academy School of Blockchain

Antonio Menéndez Sierra
Experienced coach in the field of banking, retail, real estate and FMCG

George Basiladze
Financial expert. CEO of Cryptopay

Partners
